Charis SIL - Documentation

Thank you for your interest in the Charis SIL fonts. This font family supports the broad variety of writing systems that use Latin and Cyrillic scripts. The design is optimized for high readability at a wide range of sizes and resolutions, making it ideal for new readers moving on from simple sans serif forms.

This documentation is a set of HTML pages that can be viewed in any modern web browser. PDF versions of these pages are also provided. This content, plus download links and a contact form, are available from the Charis SIL site.

- About Information about this project and SIL International
- Resources Help with installation and use
- FAQ Common questions and answers
- Design History and background of the design
- Character set support Details of Unicode characters that are supported
